

# ASTRAL PROJECTIONS

**FEBRUARY 2007**

[www.ASTRA-NJ.org](http://www.ASTRA-NJ.org)

**This issue of Astral Projections is dedicated  
to the memory of Dr. Erik Zimmermann, PhD**

**Dr. Rolf Erik Zimmermann, Ph. D  
1941-2007**

The members of ASTRA have lost a wonderful friend, teacher and the founder of their club. Dr. Zimmermann passed away on Friday January 26, 2007. He left behind many people touched by his presence in their lives. His knowledge, kindness and encouragement gave people the support to learn, have fun and through his club, bring Astronomy to others.

The club will make a donation to the Susan G. Komen Foundation as requested by the family in lieu of flowers. Dr. Zimmermann will be deeply missed.

By: Sarah Waters, President, A.S.T.R.A.

**\*\*\*\* PLEASE NOTE \*\*\*\***

**The ASTRA meeting will be at 8 PM  
in the College Center Solar Lounge across from the Planetarium.**

### **Our Next Meeting - Feb. 9, 2007**

**Exploring the Night Sky** - Due to the untimely passing of Dr. Zimmermann, Rich Brady will be unable to present "*The Stars of Winter*" as previously scheduled, as he will be assuming Dr. Zimmermann's class schedule. In his stead we will be hosting a video lecture presented by Professor Alex Filippenko, Professor of Astronomy at the University of California at Berkeley. This will be an interesting and fact filled lecture on the evening sky to last approx. 45 minutes.

**NEW FOR 2007** - As a paid-up member for 2007, when you attend a monthly meeting, you will be entered into a free drawing for a door prize to be given away at the end of the meeting. Who will be our first winner!

## Highlights of the Last Meeting

Our January Telescope Workshop went well. We had about 25 ASTRA members come to help the about 60 people that came for help with their telescopes. The meeting started with Sarah Waters welcome to the ASTRA meeting, then she went over the free catalogs and informational literature anyone could take. Next Rich Brady gave an overview of telescope types. At this point we divided the group in three for individual help: refractor telescopes went with Gene Russo; digital control telescopes went with Bob Salvatore; and reflector telescopes stayed with Rich Brady. The other ASTRA members went with the groups they could help. The weather was cloudy so there was no observing, but we stayed until everyone was helped.
